

# STEADY TO WING WOMEN'S UPLAND WORKSHOP

In upland hunting, 'steady to wing' is a term used when a pointing dog stays on point and holds steady until the bird flushes. To us, it's so much more than just that...

Over the course of two and a half days participants will get the chance to meet other likeminded women, learn about cooking, habitat and conservation, spend time at the range shooting clays and learning about gun handling and safety, and spend a day on a game preserve hunting with mentors over dogs. Other topics include gear, ethics, strategy, storytelling, and more.

Your support can make a huge difference in the lives of 12 women who are eager to embark on a life-changing journey. Our event has already gained regional recognition, and in the last 3 years, it sold out very quickly! By contributing to this beginner's event, you can empower these women to gain new skills and create meaningful connections. With your help, we can ensure that these women can reach their full potential and succeed in their endeavors. Join us in making a positive impact and changing lives!
